| Boog 180°  | Profiel   | Glaslijst | Radius (R)(mm)   | Aantal |
|--|-----------|-----------|------------------|--------|
|  | Profil nr | Glasleist | Radius (=R) (mm) | Stk.   |
|  |           |           |                  |        |
|  |           |           |                  |        |
|  |           |           |                  |        |
|  |           |           |                  |        |
|  |           |           |                  |        |
|  |           |           |                  |        |
|  |           |           |                  |        |
|  |           |           |                  |        |
|  |           |           |                  |        |
|  |           |           |                  |        |
|  |           |           |                  |        |
|  |           |           |                  |        |

### Radius-Ansatz

Opgelet! Radius steeds te meten tot aan buitenzijde van het profiel

*R = Radius Profil-Aussenkante*
